

## 2 Ampthill Festival in association with Times & Citizen

As Ampthill's premier Drylining Contractor, KJW Drylining Ltd is proud to be sponsoring the Ampthill Festival for 2008. With both our Company and personal roots firmly set in Ampthill and many of our employees coming from the local community, we feel privileged to be given this opportunity to support such a prominent event in the town's calendar.

KJW Drylining Ltd was established by husband and wife partnership Kevin and Helene back in 2002 and has grown in that time from a small company employing initially 12, to the present day employing a workforce of approximately 100 skilled tradesmen.

KJW provides drylining and plastering services to many of the major house builders for new build developments, such as Taylor Wimpey, Twigden Homes, Inspace, McCann Homes, Bloor Homes, SDC as well as a small number of local property developers such as GP Builders (Ampthill) Ltd and Cowlgrove.

KJW's workforce has a healthy mix of experienced tradesmen and apprentices/school leavers, being given the opportunity to learn a trade and obtain trade qualifications, many of which are local personnel, including members of Ampthill Rugby Clubs 1st & 2nd teams and Ampthill Football Clubs 1st team. KJW believe this is the way forward with our aim to build a strong and loyal workforce having the right attributes and communication skills in their respective trades.

As Ampthill people and an Ampthill based Company we hope this years Festival will be as successful (if not more) than in previous years.
